Action Program

Recycle Ink Jet and Laser Cartridges and Earn Money

Each year only 5-10% of inkjet cartridges are recycled. With over 150 million ink jet printers around the world, that means millions of cartridges are still going into our landfills. Let's help the Earth and earn funds by recycling inkjet and laser cartridges. You can earn money for

eco-activities. It would be great for you to donate some of the funds you earn to KSE. Read the info below and then go to this link on line: http://kidsforsavingearth.org/epal_newsletter/sept_06.htm Click on the word "flyer" to print out a flyer you can provide to parents and friends to help you with your recycling program.

Left over ink clings to used cartridges and can pollute the groundwater that we drink.

Industry sources say an average of 1/2 gallon of oil is conserved for each cartridge recycled.

In 2004 around 400 million toner cartridges ended up in U.S. landfills. Each year the number of cartridges that are thrown away increase by 12 %.

If all the ink cartridges thrown away in one year were placed end to end, they would circle the Earth.

Each laser toner cartridge (used in copiers and laser printers) that is thrown away adds from 1 to 4 pounds of plastic, metal and chemicals to a landfill.

About

www.kidsforsavingearth.org

The mission of Kids for Saving Earth (KSE) is to educate and empower children of all ages worldwide to unite with friends and take positive, peaceful action to help protect Earth's environment. For more info go to:

Promise Challenge

Get as many people as you can to take the promise!

The Earth is my home.

I promise to keep it healthy and beautiful.

**I will love the land, the air, the water
and all living creatures.**

I will be a defender of my planet

United with friends,

I will save the Earth

Where do I recycle my cartridges?

Many organizations provide ways for you to recycle your cartridges. Email KSEWW@aol.com to find a location near you where you can both earn funds and protect the Earth.
