

Be a KSE Reporter

Through the Kids for Saving Earth

News Reporter Program

Receive an Official KSE News Reporter Button and Defender of the Planet Award

Write an article about Earth-Saving issues and place it in your local or school newspaper. Perhaps you would like to make a video about an environmental problem or solution and get it on a local TV news program, talk show or cable show. Send us a copy of your news report or your video, and we'll send you a Defender of the Planet Award and a KSE News Reporter button.

It helps the Earth each time you share Earth-saving messages. Send stories to newspapers, local and national, and even to your school newspaper. Also, send stories to magazines, radio stations, TV stations, and more! Ask them to interview you or use your information in a report. Send us a copy of the article so we can put it on our Defenders Link.

It also helps to spread the message about Kids for Saving Earth in all your school news reports. It's a great way for kids and adults to learn where to get environmental information.

Click here for a "News Flash" page that you can print out and write on, and then send your stories to the media outlets of your choice. Don't forget to let KSE know what you did. We'll put it on the KSE web site!!
